DETAILED ACTION

Claim Rejections - 35 USC § 103

1. The following is a quotation of 35 U.S.C. 103(a) which forms the basis for all obviousness rejections set forth in this Office action:

(a) A patent may not be obtained though the invention is not identically disclosed or described as set forth in section 102 of this title, if the differences between the subject matter sought to be patented and the prior art are such that the subject matter as a whole would have been obvious at the time the invention was made to a person having ordinary skill in the art to which said subject matter pertains. Patentability shall not be negated by the manner in which the invention was made.

2. Claims 1 and 2 are rejected under 35 U.S.C. 103(a) as being unpatentable over Kattus et al. (US 5,315,895 A) and further in view of Nauman et al. (US 5,149,112 A).

Kattus et al. discloses a device for fixing to the stem of a bicycle comprising a rod 20, a pair of holders 32, 34, each with a U-shaped construction an arm 42, a pivoted confinement rod 46, fastening knob 53 through slot 49, and stop portion 47 for preventing the rod from being removed from the slot, as shown in figures 1-4. Kattus et al. does not disclose the rod as being expandable. Nauman et al. does disclose a bicycle bar attachment comprising an expandable bar 32, 34, as shown in figure 2. It would have been obvious to one having ordinary skill in the art at the time of the invention to have provided the bicycle attachment of Kattus et al. with the expandable bar of Nauman et al. in order to allow the bar to adjust to various sized bicycles.

Allowable Subject Matter

3. Claims 3 and 4 are objected to as being dependent upon a rejected base claim, but would be allowable if rewritten in independent form including all of the limitations of the base claim and any intervening claims.
